## X-Cloud Hosting

### How to Purchase Hosting Credit for you X-Node Licenses

**Disclaimer:** It is important to know that the X-Node software license is not an investment. Digital rewards produced by each license are not considered legal tender and are not backed by any government, thus the rewards have very few regulatory protections and are not insured against theft or loss by agencies such as the Federal Deposit Insurance Corporation or the Securities Investor Protection Corporation.

#### What is X-Cloud Hosting?

The X-Cloud Hosting service is an alternative and cost-effective solution if you have less than 20 licenses, and it's the quickest and easiest way to keep your license mining 24/7. Hosting fees have to be paid in D.E.B.T. Token as this ensures the payment and hosting credit allocation are implemented immediately and doesn't delay your purchasing process, as some of you have experienced with Coinpayments.

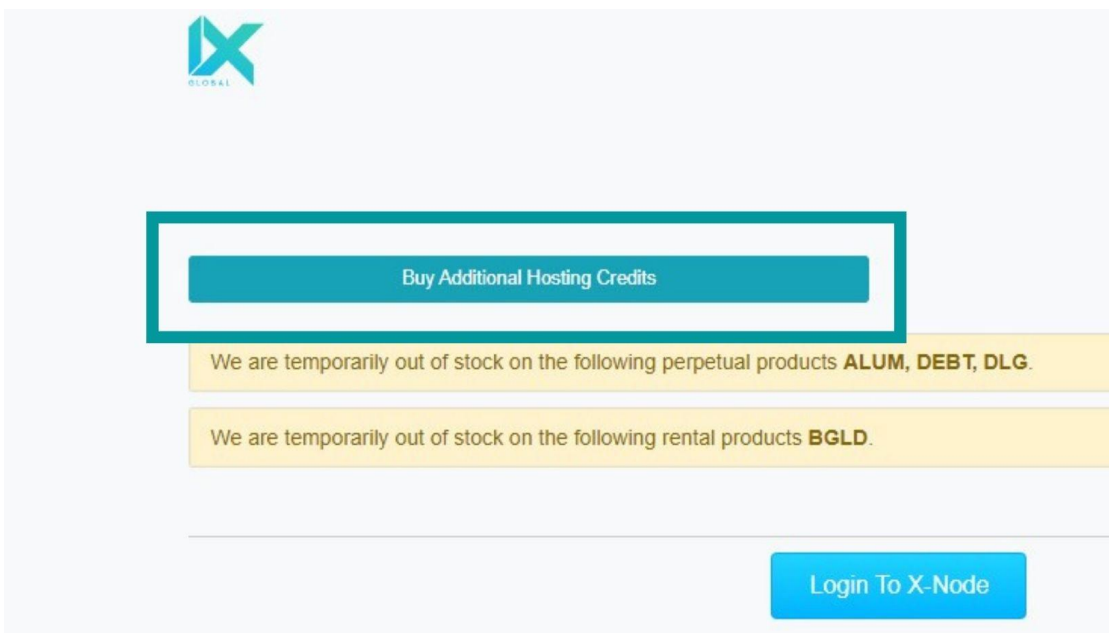

#### Please note the following points:

- This **does not** apply to 2023 Perpetual license Hosting.
- This currently **only** applies to licenses purchased in 2022. If you never bought a license before January 4th, this does not apply to you
- This is **only** for Perpetual licenses. Rentals license fees include Hosting.
- You will need DEBT Token in your available balance.
- **From 2024**, your 2023 complimentary hosting expires. you will need to choose your Hosting service. Either the VBox, X-Cloud Hosting, or a third-party hosting provider
- X-Cloud structure hosting fee comes with P.V. points.

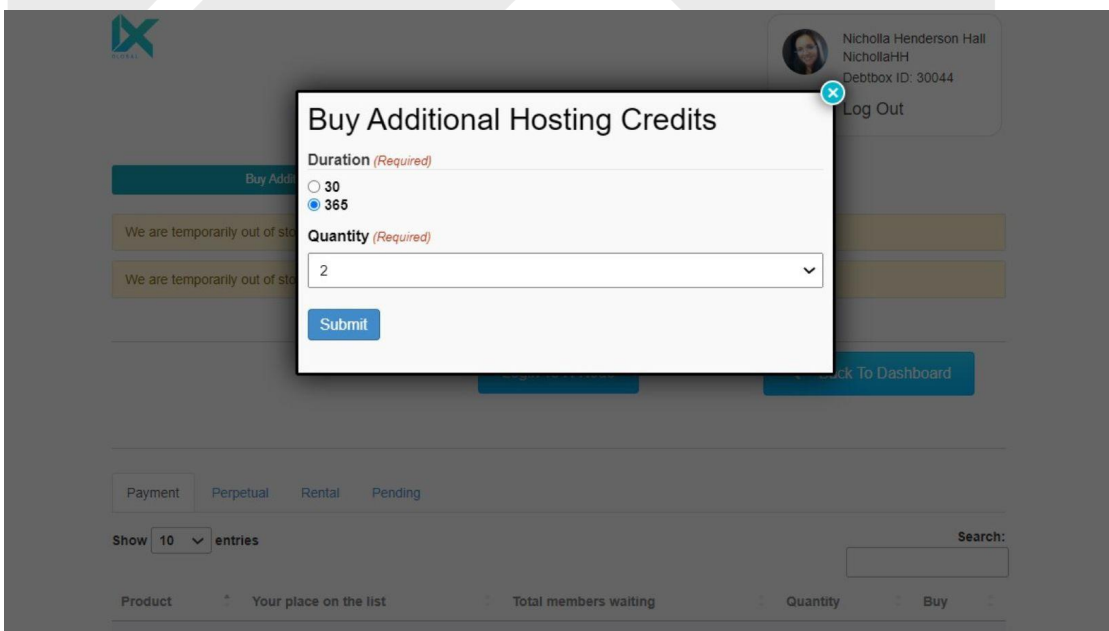

We have set up the 'how to pay for your X-Cloud Hosting' fees process via the X-Node Dashboard. Please follow these steps.
